Information and Technology

Numerical Analysis
Author: Varsha Gupta (M.Sc. Maths), Poonam Fatehpuria

Database Mgmt. & System
Author: Bhavana Sangamnerkar, M.Sc. (Computer Prog.), PGDCA Shiv Kishore Sharma
ISBN: 978-93-812549-43-1
Contents: Database Architecture, Data Models, Relational Algebra & Relational Calculus, Concept of Network, Types of DBMS and Data and Query Processing and Structured Query Languages etc

Object Oriented Programme
Author: Shipra Rastogi (GNIT, 'A Level), Kritika Saxena
ISBN: 978-93-81254-44-8

Networking Techn. & TCP/IP
Author: Kusumlata, Namarta Mehta
ISBN: 978-93-82801-72-6
Contents: Introduction to Computer Network, Introduction to Network Layers and Introduction to TCP/IP etc

Information and Technology

System Analysis & Design
Author: Elveera Miranda (MCA), Jyoti Sharma
Contents: System Development, Data Modeling, Process Modeling, Object Modeling and Important Terms for System Analysis and Design etc

Internet & Intranet
Author: Poonam Sharma (MCA, M.Sc. (IT), Rashmi Sharma
ISBN: 978-93-82801-74-0
Contents: World Wide Web, Creating and Maintaining Web Sites and Common Language on the WEB etc

Computer Graphic & Image Pro.
Author: Bindiya Patel (B.E. (IT), Ujjwala Shekhwat
ISBN: 978-93-82801-76-4
Contents: Graphics Application and raster graphics, Transformation, Output Primitives, Clipping Algorithm, Visible Surface Detection, Curves and Surfaces and Image Processing etc

Software Engineering
Author: Pallavi Gore (M.Sc. (IT), PGDCA), Kritika Saxena
ISBN: 978-93-82801-77-1
Contents: Project Management, Software Project Management, Software Quality & Testing, Software Cost & Time Estimation, Software Design, Glossary and Bibliography etc

R-4, Sector-3, Vidhyadhar Nagar, Jaipur-302039, E-mail:info@biyanicolleges.org
Educational web portal: www.gurukpo.com website: www.biyanicolleges.org
Advanced Computer Architecture
Author: Nitika Newar (MCA), Namarta Mehta

Management Info. System
Author: Kusumlata Bhargava, Jyoti Sharma
ISBN: 978-93-82801-80-1
Contents: Introduction to MIS , Overview of MIS, Development of MIS and Functional MIS etc

Network Security and Cryptology
Author: Priyamvada Pareek (MCA), Rashmi Sharma
ISBN: 978-93-82801-81-8
Contents: Block Cipher, Pseudorandom Function, Symmetric Encryption, Hash Function, Message Authentication, Asymmetric Encryption and Digital Signatures etc

E-Banking
Author: Pratibha Pathak (B.Sc., MCA), Ekta Sharma
Contents: Wireless Banking, E-Banking Risk, Risk Management of E-Banking Activities, Laws regulation and guidelines, and E-security etc

Operating System
Author: Ms. Poonam Sharma
ISBN: 978-93-82801-30-6
Contents: Introduction to Operating System, Process Management, Process synchronization and deadlocks, Primary memory management, Secondary storage management, Protection and security

Computer Graphics
Author: Mr. Gajendra Sharma
ISBN: 978-93-82801-34-4
Contents: Output Primitives, Two Dimensional Concepts Clipping Algorithm, Three dimensional concepts, Computer Animations

Software Engineering
Author: Ms. Madhu Sharma

Analysis and Design of Algorithms
Author: Ms. Rashmi Sharma
Information and Technology

**Computer Architecture**
Author: Shweta Nigam, Namarta Mehta  
Content: Combinational Circuits, Sequential Circuits, Register, I/O Interface, Instruction and Addressing Arithmetic/Logic unit, Memory, Processor, Microprocessor and Microprocessor program

**Web Technology**
Author: Nitasha Jain  
ISBN: 978-93-82801-33-7  
Content: HTML With Tags and Attribute, Java Script, Arrays, Number Name, Object Oriented Programming, DHTML, Dhtml - CSS, PHP, ODBC Connectivity & MCQ’s

**Database Management System**
Author: Nandini Parwal  
Content: Overview of DBMS, Architecture of DBMS, Entity Relationship Model, Introduction to Data Models Normalization, Relational Model & Query Processing, Structured Query Languages Advanced Features of SQL

**E-Commerce**
Author: Neha Jain, Kritika Saxena  

**Discrete Mathematics**
Author: Alap Mukherjee, Poonam Fatehpuria  
Content: Formal Logic and Propositional Calculus, Sets and Relations, Graph Theory, Group, Finite State Machines & Languages, Posets and Lattices and Combinatorics

**Programming In C**
Author: Ms. Neha Jain  
ISBN: 978-93-82801-29-0  
Content: Problem Solving with Computers, Overview of C Programming Simple Program Construction, Functions, Arrays, Storage Classes, and Pointers

**Numerical Analysis**
Author: Mr. Alap, Ms. Poonam Fatehpuria  

**Programming in Java**
Author: Dhanesh Gupta, Shiv Kishore Sharma  
ISBN: 978-93-82801-29-0  
Content: Features of Java, Arrays, Class & Methods, Inheritance, Interfaces, Package, Applet, String, Java Beans, Servlets, JDBC

Information and Technology

**Computer Architecture**
Author: Micky Haldiya, Jyoti Sharma
ISBN: 978-93-81254-38-0

**Operating System**
Author: Foonam Sharma (MCA, M.Sc. (IT))
Ekta Sharma
Contents: Process Management, Basic Synchronization Principles, Deadlocks, Device Management, Memory Management, Information Management and Distributed Systems etc

**Data Structure And Algorithm**
Author: Bhavana Sangamnerkar, Rashmi Sharma
ISBN: 978-93-81254-40-0
Contents: Process Management, Scheduling Mechanisms, Basic Synchronization Principles, Deadlocks, Device Management, Information Management and Distributed Systems etc

**Principle of Programming Language**
Author: Sandhya Saju, Dhanesh Gupta
Contents: The Decision , Loop , Case Control Structure, Functions, Array, Structure, Arrays and Union, Pointers, File Handling, C++ programming and Oops Concepts etc

**Internet Application & Development**
Author: Shipra Rastogi (GNIT, 'A' Level)
Shiv Kishore Sharma
Contents: HTML Fundamentals, Language Features, Classes and Objects, Packages and Interfaces, Exception Handling in Java, AWT based effective GUI in Java, Applets and Threading in Java etc

**E-Commerce**
Author: Deepika (M.Sc. –IT), Ekta Sharma
Contents: E-commerce & Scope of E-commerce, Client server technology, Competitive advantage and business strategy, VAN & EDI implementation, high level design and detail design and Testing, Implementation & Maintenance etc

**Statistical Methods**
Author: Dr Archana Dusad
Contents: Classification, Tabulations, Measure of Central Tendency, Measure of Dispersion, Probability, Probability Distribution and Theory of Estimation etc

**Simulation and Modeling**
Author: Ms Rajini Sharma, Ujjwala
ISBN: 978-93-82801-78-8
Contents: HTML Fundamentals, Language Features, Classes and Objects, Packages and Interfaces, Exception Handling in Java, AWT based effective GUI in Java, Applets and Threading in Java etc

data is extracted from a table of contents page from a book catalog.
**Information and Technology**

**Dataware Housing**
Author: Vijita Pareek, Ajay Sharma  
Content: Introduction of Data Warehouse, System processes, Process Architecture, Database Schema, Aggregations, Security and Data mining

**Simulation & Modulation**
Author: Anju Bhatt, Ujjawala Shekhawat  
Content: Introduction & Motivation, System Dynamic, Discrete System Simulation, Model Validation, Design of simulation experiments and Output Analysis, Languages for Discrete System Simulation, Generation of random numbers and their applications

**Management Information System**
Author: Kusumlata Bhargava  
Content: Introduction to MIS, Overview of MIS, Development of MIS and Functional MIS

**Artificial Language**
Author: Rashmi Sharma  
ISBN: 978-93-83343-08-9  
Content: Introduction, Knowledge Representation and Expert System

**Advanced Internet Application Development**
Author: Peeyush Pareek, Shiv Kishore Sharma  
Content: Introduction to VB Script, JSP and JDBC

**E-Commerce**
Author: Mukta Sharma  
Content: E-commerce framework, Network infrastructure for e commerce, Network security, Security and privacy issues, Consumer oriented Application, VAN & EDI implementation

**Fundamentals of IT**
Author: Kusumlata Bhargava, Ujjawala Shekhawat  
Content: Information System, Electricity, Computer System Fundamentals, Anatomy of Computer, Input Devices, Output Devices and Input and Output Devices

**Software Engineering**
Author: Pallavi Gore, Anju Bhatt  
ISBN: 978-93-83462-17-9  
Content: Introduction to Software Engineering, System Analysis, Software Project Management, Software Quality & Testing, Software Cost & Time Estimation and Software Design
Operating System
Author: Ms. Poonam Sharma
ISBN: 978-93-82801-30-6
Content: Introduction to Operating System, Process Management, Process synchronization and deadlocks, Primary memory management, Secondary storage management, Protection and security

Computer Graphics
Author: Mr Gajendra Sharma
ISBN: 978-93-82801-34-4
Content: Output Primitives, Two Dimensional Concepts Clipping Algorithm, Three dimensional concepts, Computer Animations

Software Engineering
Author: Ms Madhu Sharma

Analysis and Design of Algorithms
Author: Ms Rashmi Sharma
